As Miami-Dade continues to grow, Helbiz is committed to improving the county's public transportation network by offering eco-friendly alternatives. "We're excited to expand our presence in Miami-Dade and enhance the county's transportation network," said Sam Ehsani, Head of Operations in NA for Helbiz. "E-bikes are widely perceived as more accessible to a wider audience, especially those who may have difficulty using e-scooters. We're confident that this deployment will be a valuable addition to the county's transportation options."

The additional e-bikes will be available for use in the next few weeks. Helbiz encourages residents and visitors to try them out and experience the benefits of our electric micro-mobility solutions.
