“The impressive results of the first round of pre-orders has convinced us that the Wheels One is a game-changer in sustainable commuting and a major new revenue stream for Helbiz,” said Helbiz CEO Salvatore Palella. “We are excited to offer even more customers the opportunity to experience the benefits of this advanced micro-mobility device.”

The Wheels One is a cutting-edge solution for sustainable commuting, featuring a 30% more powerful motor and larger brake discs and pads than previous versions of the vehicle, Lidar for enhanced safety, a one-piece chassis designed for strength, IP56 waterproofing for all weather conditions, and an expansion port for customized accessories.

This second round of pre-orders will have a limited stock of 3000 vehicles which aim to generate potential commitments of over \$5 million in future sales. The pre-ordered vehicles are intended to be shipped to customers by Q3 2023.
